IRRIGATION SOLUTIONS FOR THE FUTURE

Geleceğin Sulama Çözümleri

ÜRÜN KATALOĞU | PRODUCT CATALOUGE | **www.sistemvana.com**

Yüksek mukavemetli kontrol vanaları ve damla sulama altyapısı ile su kaynaklarınızı verimli yönetin, mahsulünüzü güvenceye alın.

Manage your water resources efficiently and secure your crops with high-strength control valves and drip irrigation infrastructure.

Geleceğin Sulama Çözümleri

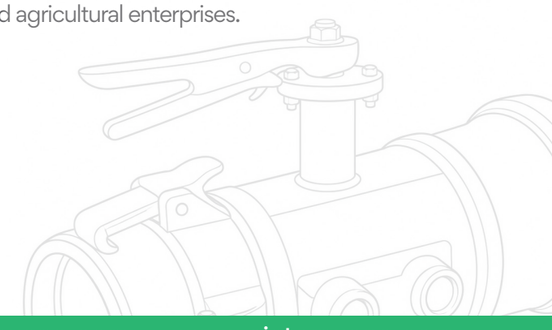

IRRIGATION SOLUTIONS FOR THE FUTURE

Sistem Vana, kurulduğu günden bu yana sürdürülebilir tarım ve verimli su yönetimi vizyonuyla hareket etmektedir. Tarımsal sulama sektöründe yerli üretimin gücünü temsil ederek hidrolik kontrol vanaları, filtre üniteleri ve damla sulama altyapı elemanları tasarlayıp üretmekteyiz.

Mühendislerimiz ve saha ekibimizle birlikte, çiftçilerimizin ve tarım işletmelerinin karşılaştığı su yönetimi zorluklarına karşı pratik, uzun ömürlü ve akıllı otomasyona uyumlu çözümler geliştirmeyi misyon edindik.

Since its inception, Sistem Vana has operated with a vision centered on sustainable agriculture and efficient water management. Representing the strength of domestic manufacturing within the agricultural irrigation sector, we design and produce hydraulic control valves, filtration units, and infrastructure components for drip irrigation.

Together with our engineers and field team, our mission is to develop practical, durable, and smart-automation-compatible solutions to address the water management challenges faced by farmers and agricultural enterprises.

WE VALUE EVERY DROP OF WATER AND ACT WITH THIS RESPONSIBILITY.

Suyun her bir damlasına değer veriyor ve bu sorumlulukla hareket ediyoruz.

Gelecek Vizyonu
Future Vision

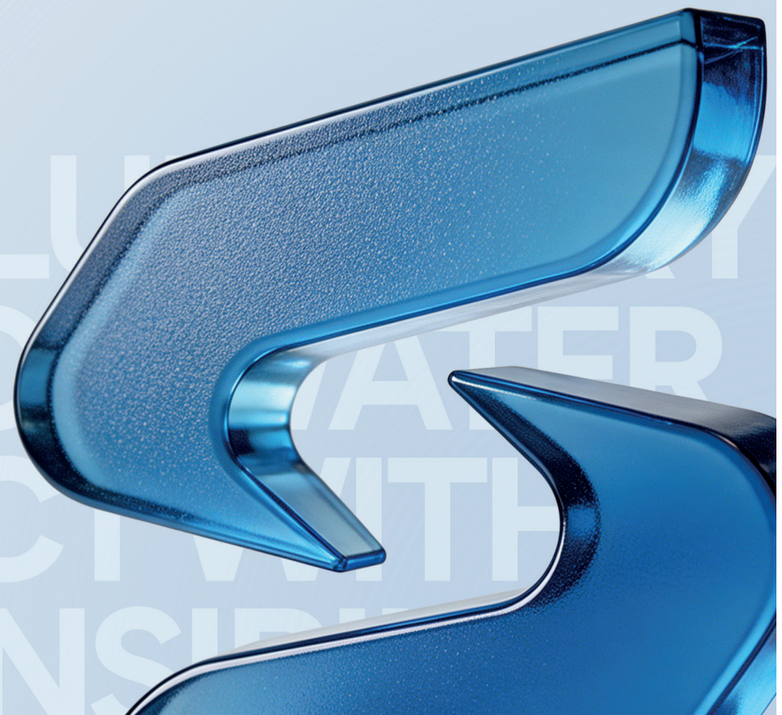

Küresel iklim krizi ve su kıtlığı karşısında,
tarımda su kaybını sıfıra indiren akıllı ve otonom kontrol üniteleri geliştirmek.
To Develop Smart and Autonomous Control Units That Eliminate Water Loss in Agriculture in Response to the Global Climate Crisis and Water Scarcity.

Yüksek Kalite Standartları
High Quality Standards

ISO 9001 ve TSE sertifikasyonlarımız ile hammaddeden
nihai ürüne kadar her aşamada üst düzey kalite denetimleri yapıyoruz.
With Our ISO 9001 and TSE Certifications, We Conduct Rigorous Quality Inspections at Every Stage, From Raw Materials to the Final Product.

Çevre ve Sürdürülebilirlik
Environment and Sustainability

Doğal kaynaklarimizi korumayi görev biliyoruz.
Enerji ve su tasarrufu sağlayan sistemler üreterek çevreye katkıda bulunuyoruz.
We Consider It Our Duty to Protect Natural Resources. We Contribute to the Environment by Producing Systems That Save Energy and Water.
